“I have worked with Lyncon Construction for approximately 6 years on various data center projects and have always been impressed! I have found the staff at Lyncon to be very professional & responsive to issues that inevitably arise in construction. The experience level both in the field and in the office is reassuring and they always remain very proactive as a company. Lyncon maintains a great group of subcontractors who always perform at a high level! I would recommend Lyncon to anyone who needs to get a project completed!”
